

New Forest & District Sailability

Members' Representative

The principle aim of the position of Member's Representative is to act as a liaison between members (volunteers and sailors) and the Committee.

This involves raising matters of concern or suggestions regarding the operation of New Forest Sailability with the Committee at their monthly meetings, or to individual committee members if necessary. This can be done in confidence if appropriate.

Conversely, it is important to inform members of decisions taken by the Committee, and to act as a source of information regarding the operation of NFDS generally.
